

PRESS RELEASE

Acquisition of Rottmann-Scheffel GmbH
by the JK Group.

Windhagen | 15.07.2021

With the acquisition of Rottmann-Scheffel GmbH, the JK Group is further expanding its cosmetics business.

Hamburg-based Rottmann-Scheffel GmbH is one of the largest European wholesalers of indoor tanning lotion with 'Tan Discounter'. As the exclusive distributor of high-quality products and well-known brands such as 'Devoted Creations', Rottmann-Scheffel GmbH is one of the most important cosmetics suppliers to tanning salons in Europe.

The JK Group is the global market leader of commercial tanning beds and a leading supplier in the wellness, lifestyle and healthcare sectors. With the acquisition of 100 percent of the shares in Rottmann-Scheffel GmbH, the JK Group will further expand its existing cosmetics business. The long-term successful cooperation between Rottmann-Scheffel GmbH and its suppliers and customers was one of the main reasons for the acquisition. The good and trusting communication will be continued and further intensified in the future. In order to use synergies, existing processes will be integrated into the JK structure in the next few weeks. The contact persons will remain the same in the future, so that nothing will change for customers and partners of Rottmann-Scheffel GmbH.

We are looking forward to continuing the success of Rottmann-Scheffel GmbH together with our suppliers and partners in the future.

About the JK Group

The JK Group, based in Windhagen, Germany, is a leading supplier in the wellness, lifestyle and healthcare sectors. In addition to production, a development centre and showroom, other production facilities, a logistics centre as well as administration and technical customer service are located in Bad Honnef-Rottbitze. Peter Althaus and Marco Jakobs are members of the management board. The company was founded in 1927 as a joinery business. The JK group of companies, which includes the global brands Ergoline (solariums), Wellssystem (overwater massage), Beauty Angel (apparative cosmetics) and pure (UVC air disinfection), employs around 350 people. With its own claim to high quality 'Made in Germany' and its constant striving for innovation, consistent customer orientation and worldwide service network, the JK Group has established itself among the industry market leaders..
